INDUSTRIAL VISIT REPORT

Name of the Department: Bhavani Industry

Date of visit: 15th September 2017

Faculty Coordinators: Sri.M.S.Chelva and Anilkumar C.

Class: Final Year B Sc

Number of visitors: 20

Department of Electronics organized an Industrial visit for Final year B Sc Students to Bhavani Industry, Behind Bidar Institute of Medical Science Bidar on above mentioned date.

Bhavani Industry offers an exhaustive and pioneering product range of power Electronics products with completely customized solutions to keep costumers ahead in the competitive area

The purpose of industrial visit for students is to provide technical knowledge with the technological development in the industry and to understand the gap between the theoretical and practical knowledge.

The industry manufactures a varied range of products, such as Inverters, batteries, drivers, and solar inverters . The product development is a continuous process at Bhavani Industry.

We reached the Industry at 10.00am and after reaching the Industry Now we went to battery manufacturing section with Ajayakumar. He explained about the designing ,maintenance application of batteries. Then we entered in to the inverter manufacturing section with Karthik. He explained about the design and manufacturing of inverters including solar inverters and single phase UPS.

The visit was completed at 1.00pm. The visit was very fruitful as we observed manufacturing department of various power electronics products. We collected very impoetant information. And Many of our doubts are cleared by discussion with experts of the industry.
