The training was interactive and engaged the teachers on the concept of “How Can I Support English Language Learners in my Classroom?”. Some teachers they were finding difficulty in teaching English language to the rural students because of their different cultural background. And English language seems to be very difficult for rural students. The rural students were not much exposed to the technological world and they used to speak in their mother tongue.

Through this training program we have taught them how to support the English language learners in their classrooms. It helped them to allow the students to speak short sentences, correct pronunciations and framing of proper sentences. Teachers have learned that how to engage the students by interaction. The entire programme was very much useful and beneficial for teachers and was also a fruitful event.

We would like to appreciate the HM and the staff for their kind cooperation in this regard.

On 26<sup>th</sup> and 27<sup>th</sup> of July 2022 we have paid the visit to Govt. Higher Primary School, Andoor Tq and Dist Bidar. Teachers from different schools have come to attend the training programme and made it great success during training session few teachers shared their views, difficulties and asked questions and finally the doubts were cleared and questions were answered.

Mrs. Sibila Rani, One the English teachers in the prgoramme had come out with her quality questions doubts regarding student learning difficulties and all were answered by our resource team.

The training has impacted and helped the teachers to acquire English Language Teaching Skills in different dimensions.

On 26<sup>th</sup> and 27<sup>th</sup> of July 2022, our resource team moved towards the Govt. High School Hallikhed (B) Tq Humnabad and Dist Bidar and met the HM and Staff discussing about the training programme.

The HM and the Staff gladly welcomed us and arrange the training programme for English teachers from different schools situated in Hallikhed (B). the training programme was interesting and interactive as so many teachers were participated and had come up with their views and accepted the students learning difficulties.
