Event Description:

This event was conducted on 23rd February 2021 through Online i.e., via. Google meet. Research methodology is the specific procedures or techniques used to identify, select, process, and analyze information about a topic. In a research paper, the methodology section allows the reader to critically evaluate a study's overall validity and reliability. A research methodology gives research legitimacy and provides scientifically sound findings. It also provides a detailed plan that helps to keep researchers on track, making the process smooth, effective and manageable.

Here the respected resource person shared about the purpose of a research methodology. And guided the students about the ways of solving a research problem such as Objective Problems faced by researcher during research Lack of scientific Training, Insufficient Interaction, Lack of Confidence in researchers, Lack of Code of Conduct, Dissatisfactory Library Management and functioning, Difficulty of timely availability of published data, Plagiarism, Conclusion, and References & Questions. He also included many other things like procedure of research, describing the work, predicting the phenomenon and aims to give work plan of research. At the end of the session students understood an overall framework on the topic Research Methodology and shared immense gratitude.
