Respected Sir,

Greetings of the day!

As a part of the quality assurance initiative, IQAC collects feedback on the curriculum from various stakeholders such as Students/Teachers/Alumni and Employers for improvement in the curriculum development process.

We have carried out a systematic analysis of the feedback obtained on the curriculum from various stakeholders and presenting the highlights/overall opinion of the stakeholders for future curriculum development & revision process at the University level:

1. Stakeholders feel that Arts and Commerce courses need more experiential learning exposure. Moreover, they suggested introducing mini projects, practical fieldwork and internships at the end of the semester during the summer and winter breaks.
2. Most stakeholders expressed that open elective options must be provided to encourage interdepartmental and interdisciplinary learning.
3. Locally need-based courses/ fieldwork to be introduced in life Science related courses stakeholders pinpointed it.
4. Machine learning, data science and AI are recent advances in professional courses such as BCA that need to be introduced as most students demand.
5. Subject-specific skill-based activities need to be introduced at PG programs at the end of each semester so that students will get more exposure to in-demand skills to get employment/ entrepreneurship.

These points will be helpful, and we hope University will consider them while developing and revising the curriculum.

Yours Faithfully
