**Details of the Coordinator:**

Associate Professor Anil Chikkamanoor, Training and Placement Cell, Karnatak College Bidar

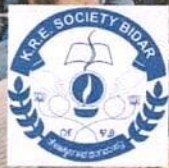

**About the event:**

Training and Placement Cell KASCC, Bidar organized a one-day Career Guidance program on Artificial Intelligence and Machine Learning on 23-08-2022 at 1.00 PM in A.V. Hall, **Dr. M.S Chelva**, Principal KASCC addressed the program and **Mr. Arpit Yadav** delivered the ideology and importance of AI and ML with that if you're new to the field, you might be wondering, just what is Artificial Intelligence then? AI is how we make intelligent machines. It's software that learns similarly to how humans learn, mimicking human learning so it can take over some of our jobs for us and do other jobs better and faster than we humans ever could. Machine learning is a subset of AI, so sometimes when we're describing AI, we're describing machine learning, which is the process by which AI learns. With Machine Learning, Algorithms use a set of training data to enable computers to learn to do something they are not programmed to do. **Mr. Priyanshu Sugara** delivered a talk on Machine learning provides us with technology to augment our human capabilities.

A total of 74 students from UG and PG of different streams have participated in this program.
