About:

The Department of Computer Science organized a one-day Career guidance program for BCA final-year students on January 21, 2022, in the AV room. Sri. Sidraj Patil, Director of the KRE Society, Bidar, inaugurated and engaged all four sessions. Preparing for campus placement is the initial step in preparing for the professional life ahead. Campus placement paves the way for a better professional career ahead. Hence, campus placement preparation holds significance. Campus placement is simply defined as a recruiting programme that is conducted at various universities and institutions with the intent to provide jobs to students who are nearing completion of their respective courses. The primary goal of campus recruitment is to identify and hire a desirable and efficient workforce at an early stage. Campus placement not only saves students time and effort in finding their desired jobs on an individual level. It also opens a wide range of opportunities for students to excel in the field of their interest right after the completion of their studies. He quoted these words in his inaugural speech.

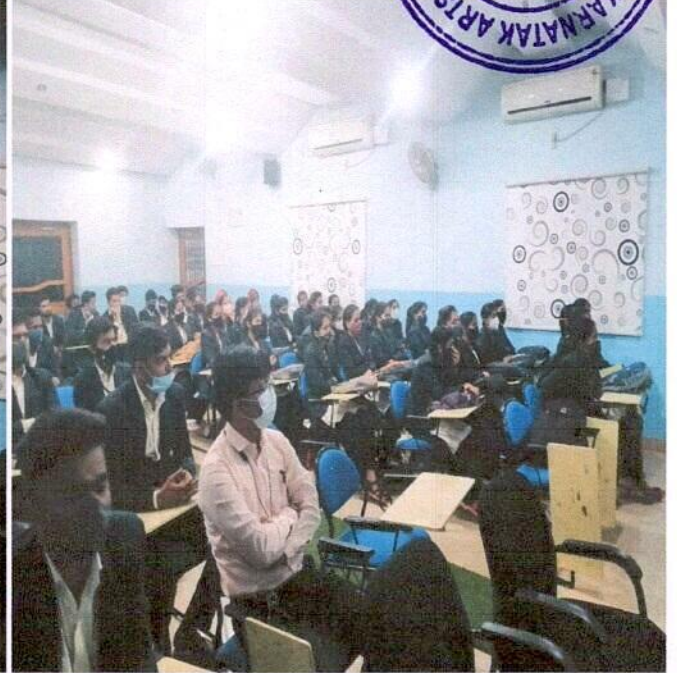

A total of 110 students attended this training program.
